the lost chapter in the lords of the ring saga, for good reasons.. i cant play it at all. Pay to Win. Bad idea when, at present, the consumer pays for the game itself. Very grindy as well and this is coming from someone that has played and enjoyed the grindfest of korean games.

On the plus side the graphics are good and it s a good concept.

Developers - Have f2p with in game store OR 30 - 50 for the game not both. Thats just greedy.. **DISCLAIMER:** There are currently pretty much no people playing the game

But it seems pretty fun and since it's at 1\20ac right now I'd highly reccomend it

However you should buy it together with friends to play it. I once had a dream that I was a giraffe, it was glorious!. Saw it on sale for cheap so not too much of a loss.

Grabbing\holding parts doesn't consistantly work (60-70% fine), game decided at three different points to resize from "Fullscreen" to "Original" - whatever damn resolution original is.... Definitely amazing, new callouts, equipment and tasks. However there are some glitches that I found, but those are the only problems to this DLC so far. Overall this is worth buying.. This game is by far an experience that you **WILL NOT FORGET!!!** Might i add that you will also not **REGRET** it in any way shape or form. Werf, but needs nerf.

Should be free but still werf..

Please fix the **WHITEOUT** bug.

Thank you for your hard work and efforts.. Great mod, well worth playing if you are a Half Life fan.

Ok, let's start with the answer you are probably searching for: It's nothing like Diablo, the most similar game I can think of is the good old "The Immortal" on MS-Dos\\NES\\Megadrive or maybe Cadaver by The Bitmap Brothers.

Forget big randomly generated dungeons, you have predesigned places that are smaller but definitely less grindy than your average hack'n'slash.

So if you take that in consideration, Clans is actually pretty good! A nice dungeon crawler with pre-rendered graphics and divided in rooms.

Every item in the levels is placed there by design, every room is unique, puzzles aren't difficult but some are not obvious either, it plays more like a combat heavy adventure game.

Characters have a lot of funny one-liners, there are many puzzles even if at the moment are all really simple to solve and...

drumrolls

You can play it in co-op and it works flawlessly!

One player needs to host, the others can join via ip. The lan option doesn't seem to work but you can play locally if you choose "internet" and use your lan ip address. You can chat with T key or give orders like "go north" etc using the cursor keys.

There is also a pdf manual included with the game (from your steam library page select Clans then click "manual"), read it for some useful hints and funny bits.

Combat is quite bad, playing with the elf you'll find yourself to spam magic and then run the f*ck away from enemies while mana recharges, going in silly circles around them. But I really cannot say i'm not having fun, it's just very old school. Would have been a very great game with a more elaborated combat system.

PS The forest at the beginning is enchanted, that's why the map doesn't work there, it repeats endlessly if you don't take the right path, it's not a bug ;). If you like the art of Hare Konatsu, then I'd recommend this. Very good

[Awesome game but with some flaws. If you like zombie games \(like I do\) then you will most likely find it enjoyable. The first few waves were way too easy for me so that made it a bit boring at first. But as soon zombies started to appear more frequently it immediately got more exciting.](#)

[The weapons must be realistically reloaded and that adds an extra challenge. It's great because otherwise it would simply get too easy and boring.](#)

[I've played it for over an hour now and only experienced two bugs and neither of them caused any major issues. To me that's very impressive seeing as this is still an early release.](#)

[Right now I think it's a bit overpriced for the experience which I had \(but not by a lot\). It seems a little too basic at the moment and doesn't offer much of variation in terms of gamemodes or similar. But, seeing as this is an early release and that the developers have promised more features it won't affect my final verdict too much.](#)

[As a whole I enjoyed the game and do recommend it to anyone else who like wave shooters and zombies.. A very addictive game, that drives you to get more points each time you play it. Not very difficult, but very much fun to kill time with.. Short but entertaining. Actually a really great 3D platformer hidden inside a REALLY subpar third person shooter.. Great game. Super hard and the crashes are very satisfying. Still better than any of the newer trials games that I've played.](#)
